Halloween Party

- Halloween Party for all skaters in our Learn to Skate, **Saturday October 26th**

Welcome back returning skaters and welcome to our new members. It's only been a few weeks but we already see great success.

Intro and CanSkate

It is amazing to watch someone get up the first time; take their first steps or learn to stop!! We are so proud!! Keep up the great skating! Spaces still available in all our programs. Please tell all your friends. **Thank you so much to all our Program Assistants.** You are doing great work! Registration for winter programs will open Nov. 01.

Helmets

All skaters must wear a CSA approved helmet. We will be asking anyone that does not have a proper helmet to please purchase one. Skaters are not insured on the ice if wearing a helmet that is not CSA approved.

Welcome New Coaches

Welcome to Megan Jaynes and Isabelle Jonker who have joined our coaching team coaching our Learn to Skate programs.

Executive opportunity

If you are enjoying being a part of our great club and would like to be more involved please see Julia. We have some openings on our Board.

CanHockey

This is a great program with hockey players in mind. We focus on basic skills to improve agility, balance, forward, backward and stopping. Full equipment is recommended but mandatory equipment needed is hockey skates, helmet and a hockey stick. If you are interested, come out and try it. Skaters must be able to stand up and skate the length of the rink. Sessions run Thursday evening at 6pm and Saturdays at 8:30 am.

Education Day! Oct. 26

Starskate Parents; have you ever wondered what a Salchow is or a combination spin? What does it mean to receive a Bronze compared to a gold or a -1 compared to +1. Please join us for an education day during your skater's session on Oct. 26.

Halloween Party - Oct. 26
